

The History of Wine – From “Sponti” to Romanée-Conti

The Wine Workshop

This workshop traces the journey of wine - from the spontaneous outcome of natural fermentation to controlled, deliberate stylistic choices. It explores why wine endured, how it spread, and what continues to shape it today.

Designed for curious minds, wine lovers, and anyone who wishes to understand wine more deeply -without technical jargon, but with substance.

The workshop concludes with a guided tasting, bringing history and the present together in the glass.

We look forward to seeing you.

Torsten & Ilya
